

CLASSROOM MANAGEMENT TRAINING – LEVEL 1

COURSE OBJECTIVES

DESCRIPTION

The central purpose of this course is to enable you to design a positive classroom climate where you and your students can engage in meaningful learning experiences together. In order to reach this goal, we will explore a range of research supported strategies for individual, classroom and school wide behaviour support. The class will be highly interactive and experiential, providing opportunities for teachers to discussion, skills practice and exploration of classroom management topics. Throughout the course, Teachers will learn:

AT THE END OF THIS TRAINING YOU WILL BE ABLE TO:

- Understanding the changing landscape of your role as a teacher
- Design a new layout for digital learning
- How to get started with tablets at school
- How to use tablets for content creation
- Using tablets for collaborative learning
- How to use tablets for personalized learning and flipping the classroom

The course is organized to prepare you to achieve success with most of your students and therefore increase the likelihood of your personal satisfaction as a teaching professional.

Duration: 1 Day | SACE Points: 10

COURSE MODULES

INTRODUCTION

- The Digital Classroom
- Learning Objectives
