

CLASSROOM MANAGEMENT TRAINING - LEVEL 3 - FOR TEACHERS

COURSE OBJECTIVES

OVERVIEW

The central purpose of this course is to enable you to design a positive classroom climate where you and your students can engage in meaningful learning experiences together. In order to reach this goal, we will explore a range of research supported strategies for individual, classroom and school wide behaviour support. Classroom management software will be discussed in order for you to manage your classroom effectively. The class will be highly interactive and experiential, providing opportunities for teachers to discussion, skills practice and exploration of classroom management topics.

AT THE END OF THIS TRAINING YOU WILL BE ABLE TO:

- Understanding the changing landscape of your role as a teacher
- Design a new layout for digital learning
- How to get started with tablets at school
- How to use tablets for content creation
- Using tablets for collaborative learning
- How to use tablets for personalized learning and flipping the classroom
- Use software to manage your classroom
