

MOODLE TRAINING - LEVEL 2 - FOR TEACHERS

COURSE OBJECTIVES

OVERVIEW

This course incorporates the principles of instructional design, showing you how to apply them to your Moodle courses. With this guidance, you will develop and deploy better courses, content, and assessments than ever. The Moodle training course will guide you as you learn how to build and incorporate many different types of course materials and dynamic activities. You will learn how to improve the structure and presentation of resources, activities, and assessments. All this will help you to create better for self-led courses, instructor-led courses, and courses for collaborative groups. The use of multimedia features to enhance your Moodle courses is also explained in this course.

AT THE END OF THIS TRAINING YOU WILL BE ABLE TO:

- Build a course structure that fits your goals
- Design a unique appearance
- Manage the resources and activities
- Tips for better organization of your course content
- Select and set up assessments
- Include effective instructional strategies
- Incorporate competency frameworks
- Run and archive webinars
- Motivate learners by incorporating badges
